## PLA audio

## The PLA15A Self Powered Full Range Speaker

The PLA15A loudspeaker provides high power output with low distortion, fullrange frequency response and optimizes sound pressure level over coverage area.

The PLA15A has many sound reinforcement applications, as a main front of house speaker in small to mid-sized venues, as a back or side and center fill speaker in larger systems. As a single side, back or center cluster optimizes misic or speech

applications due to their tight, well defined directivity pattern. When used as a main PA systems efficently delivers high sound pressure level for the most demanding of source material. When used with the PLA15SBA or PLA18SBA subwoofer cabinets, system deliver powerfull, extented bandwith reproduction with additional low frequency impact.

| SPECIFICATIONS              |  |       |
|-----------------------------|--|-------|
| Frequency Response          | 43Hz - 20KHz                                     |       |
|                             | 38Hz - 20KHz(with PLA-15SBA)                     |       |
|                             | 30Hz - 20KHz(with PLA-18SBA)                     |       |
| Maximum Output(dB SPL @ 1M) | 128dB  |       |
| Components                  |  |       |
| LF                          | 15" Cone Driver (Eighteen Sound - 15MB650)       |       |
| HF                          | 1"Compression Driver (Eighteen Sound - HD1050)   |       |
|                             | Horn (Eighteen Sound - XT1086)                   |       |
| Coverage                    |  |       |
| Horizontal                  | 80°  |       |
| Vertical                    | 60°  |       |
| Rigging                     | Integral Flying Hardware and Pole Mounth Support |       |
| Connectors                  |  |       |
| Signal Inputs               | 1 x XLR Female (Balanced)                        |       |
| Signal Loop                 | 1 x XLR Male (Parallel To Input)                 |       |
| AC Power Input              | 1 x Powercon ( Neutrik-NCA3MPA-1)                |       |
| AC Power Output             | 1 x Powercon ( Neutrik-NCA3MPB-1)                |       |
| Input Impedance             | 20 kOhm  | _     |
| Input Sensitivity           | 4dBu (1.23V) For Full Out Power                  |       |
| Controls                    |  |       |
| HPF Switch                  | 80Hz (Active When Push)                          |       |
| Indicators                  |  |       |
| Protect                     | 1 x LED Yellow                                   |       |
| Ready                       | 1 x LED Green                                    |       |
| Clip                        | 1 x LED Red                                      |       |
| HPF                         | 1 x LED Green                                    | _1    |
| Amplifier Design            | Class H  |       |
| Amplifier Output Power      | 500W (RMS)                                       |       |
| Power Requirements          | 230VAC - 50Hz                                    | _     |
| Power Consumptions          |  | - 570 |
| @ 1/8 Full Output Power     | 0,71A  |       |
| Dimensions (H x W x D) mm   | 800 x 495 x 570                                  |       |
| Weight                      | 46 Kg.   |       |
|                             |  |       |
